Let's Walk Together and Finish This**

You are My child, and as I stand here, I stand before you and I know you and I am not afraid of you. And I love you.

You hear My voice—**YOU** do, so let's walk together and let's finish this, because the things that I have for you are glorious. The things that I have for you are priceless. So don't be afraid of Me and let's walk forward.

This part has to do with your calling. He is sharing right now with me how valuable you are and how important it is to Him that you go with Him and you finish this walk. There are so many, that's what I am hearing: There are so many who have stopped. There are so many who have come so far and stopped, and I need you. The world needs you—**YOU**. I am talking to **YOU**.

He is talking to you, and He is saying, I need **YOU**. The world needs **YOU**. Don't stop. Don't camp [where you are]—don't settle. There is joy at the end of this. There is abundance—a prosperity at the end of this to where not only you will be blessed, but your children's children will be blessed.
