Healing—It Is His Pleasure

Editor's Note: The following was spoken during prayer for those needing healing.

You see, it is more than healing—it pleases Him. It's His pleasure. See, He died under the penalty of any disease Satan had in that day or could have ever created. He died under the penalty of it—died of it in my place, and because I already died of that disease, once, when I died with Him, how can it kill me again? It can't, can it? You got it—It can't.

So are you going to take your healing or what? It [the disease] can't kill you. It can't even really torture you again because He was tortured and [He] was in your place.
