### **Satisfaction Will Dwell Deep in Your Soul**

Many of you are going to be abundantly happy. Satisfaction will dwell deep in your soul, for as things move forward, know you not that you will move forward with them? And I will use what is working in you to exhort, to instruct and even to develop beachheads where you need to know enough that all that I have and am can be exhorted until they too begin to burn with revival fires.

Many of you will be surprised, very surprised at how much you know that when I am coming on you, and the people in front of you need to know what you know, then some of you will find out at that time how much you know.
