

## **04/02/95 (The “Pyramid” Vision)**

Although not delivered in the form of direct prophecy, the Holy Spirit gave Pastor Dave this vision:

“The Holy Spirit wants us to understand the cost of revival. He does not want us to faint. He showed me a power structure. It was equal on all sides like a pyramid. At the top was one person. This was the person that God had worked with a long time to instill in him the vision. God has trouble getting a person to that position because men keep wanting to stop and do things the way men do them instead of the way God does. At the Prayer Center, the vision is ‘Revival.’ Then two people join him, and they are the next two people below him on the power structure, then four join, and they are the next level, and so forth, until you have an entire power structure.

In the vision, the devil started at the bottom and then just started up the power structure, destroying and destroying. The closer it got to the ‘vision’, the man at the top, the more sophisticated the tactics had to become. When he got to the two people just below the ‘vision,’ they just started kicking each other in the face. Finally, one of them got offended and went outside of the power structure. As soon as I saw him go outside of the power structure, the Holy Spirit said, ‘As long as the person that received the original vision does not step down and kick you in the face, yet you become offended over anything, then you are operating below Revival status.’ In this condition, the devil will just continue to come and offend people and stop the whole process. To me the most important thing is not only not ‘to offend,’ but to be purged from a capacity to ‘be offendable.’ I do not want to become offended, and I do not want to give offense. If you are not capable of being offended, then you are almost not capable of being controlled.”
