

Fastened In God's Foundation

Dave Roberson-Jan 23, 2004

To Gary Carpenter:

I saw you fastened. You know cement, Gary. You were fastened like a great, big, fat anchor. Fastened in His foundation. God was beginning to balance the building and to pull on your fastening in the foundation because He knew it would hold for what He's trying to set the body of Christ free with in this generation.

The pressure is on the anchor bolt.
