

**PERSONALIZED ENDURANCE PROPHECY**  
**FROM THE FIRST MEETING IN THE PRAYER CENTER**  
**MARCH 2, 1989**

When we have done all we know to do to stand, we stand. Thank You that Your power is shaking The Family Prayer Center and everyone who comes. We are taking the sword of the Spirit—the Word of God—with all prayer and supplications in the Spirit, and when we have done all we know to do, we stand. We stand!

The keyword for us is **ENDURANCE**. You are teaching us by Your power and by Your Spirit, therefore, we keep building in power, and our endurance is producing Your desired will in us and at The Family Prayer Center. Thank You for training us about the snares and the traps of the enemy. We are continuing to pray and make it past the hard places. Thank You for the wisdom and understanding that produces power which is totally of You. Thank You for pouring out on us Your miracles. Thank You for shaking this city and training many people before this first phase of what You want to do is through. We are girding ourselves up and we are strong on Your behalf, and You are showing us things by Your Spirit that we can have that will last for an eternity. Thank You for the equipment You give us that works a great reward! We are so hungry and so desire to see these things that You are giving us. Thank You for leading us into that kind of great reward. We are brave and we stand strong in You.

Thank You for working mighty, mighty miracles. We are not losing our place. Thank You for a reward that is so exceedingly great. We love You, and we take heed to what You say to us.

Thank You for Your great peace that You are working in us. Thank You that we are fellowshiping with You in love and that love is being filtered through us and through our lives. Father, thank You that You are taking us from where we are into ever deeper places in You. Thank You that these are the places that You have given us hunger for and that You have prepared for us from the foundation of the world. You are leading us from place to place. You are flowing through us with grace. We are edifying ourselves and edifying ourselves and edifying ourselves as You have taught us, and You are purging us from everything that would cause us to fail. We not only taste the victory of changing circumstances but also the victory of resounding peace on the inside that dominates everything in a circumference around us.

Our lives are dedicated to edification, edification, edification—higher, higher, and higher in You, and our foundation is so sure, so unshakeable. Thank You that through the process of edification, You are able to move us into intercession. Thank You for the kind of intercession that enables those who are bound to go free. Though Satan is furious and mad and is stirring up demons against us as a whirlwind, we stand fast, edifying ourselves continually into a place with You, and when storms come, that we are those who are able to deliver the power that is of You. We are so glad for the wellsprings of life and the counsel in our hearts that You are drawing out so that we understand many, many matters of wisdom. Thank You, Father, that we are being taught to walk in power and You are purging us of every obstacle that lies between this outpouring and us.

Father, we thank You that many people are coming for training and equipping—in fullness—and leave walking in Your power. We hunger and thirst after righteousness, and according to Your Word, we shall be filled to the full because You are surely bringing us into a place with You. You are surely bringing us into a place with You.
